artificial intelligence is no longer the stuff of science fiction half a century of research has resulted in machines capable of beating the best human chess players and humanoid robots which are able to walk and interact with us but how similar is this intelligence to our own can machines really think is the

mind just a complicated computer program addressing major issues in the design of intelligent machines such as consciousness and environment and covering everything from the influential groundwork of alan turing to the cutting edge robots of today introducing artificial intelligence is a uniquely accessible illustrated introduction to this fascinating area of science

immanuel kant laid the foundations of modern western thought every subsequent major philosopher owes a profound debt to kant s attempts to delimit human reason as an appropriate object of philosophical enquiry and yet kant s relentless systematic formalism made him a controversial figure in the history of the philosophy that he helped to shape introducing kant focuses on the three critiques of pure reason practical reason and judgement it describes kant s main formal concepts the relation of mind to sensory experience the question of freedom and the law and above all the revaluation of metaphysics kant emerges as a diehard rationalist yet also a romantic deeply committed to the power of the sublime to transform experience the illustrated guide explores the paradoxical nature of the pre eminent philosopher of the enlightenment his ideas and explains the reasons for his undiminished importance in contemporary philosophical debates

how do emotions affect your basic decision making why do certain smells prompt long forgotten memories and what makes us suddenly self conscious how does the biological organ the brain give rise to all of the thoughts in your head enable you to think to feel to be conscious and aware to have a mind introducing mind and brain explains what the sciences have to say about planning and action language memory attention emotions and vision it traces the historical development of ideas about the brain and its function from antiquity to the age of neuro imaging clearly explained by professor of psychology angus gellatly and award winning artist oscar zarate they invite you to take a fresh look at the nature of mind consciousness and personal identity

students of literature film and cultural studies need to understand key theoretical terms and concepts but often find it hard to get to grips with exactly what they mean this book provides precise definitions of terms and concepts in literary theory along with explanations of the major movements and figures in literary and cultural theory and an extensive bibliography it is designed for the student who needs to know what a particular term means how it is used and where it comes from and enables them to apply the terms and concepts to their own investigations the three part structure provides clear definitions of key terms and ideas introductions to major figures including biographical and historical overviews and an annotated guide to important works this invaluable resource provides readers with an easily accessible and comprehensive reference guide to literary and cultural theory

containing numerous line drawings and accompanying explanatory text this book describes the structural necessities and design considerations for the outdoor features of a domestic residence from grading and drainage to patios decks and outdoor fireplaces

compact introducing guide to the father of modern physics albert einstein s development of the theory of general relativity caused a transformation in in

the physics world he received the 1921 nobel prize for physics for his services to theoretical physics and his name has become synonymous with genius joseph schwartz and michael mcguinness guide is a concise readable guide to the most influential physicist to have ever lived

activist academic meg john barker and cartoonist julia scheele illuminate the histories of queer thought and lgbtq action in this groundbreaking non fiction graphic novel a kaleidoscope of characters from the diverse worlds of pop culture film activism and academia guide us on a journey through the ideas people and events that have shaped queer theory from identity politics and gender roles to privilege and exclusion queer explores how we came to view sex gender and sexuality in the ways that we do how these ideas get tangled up with our culture and our understanding of biology psychology and sexology and how these views have been disputed and challenged along the way we look at key landmarks which shift our perspective of what's normal such as alfred kinsey's view of sexuality as a spectrum between heterosexuality and homosexuality judith butler's view of gendered behavior as a performance the play wicked which reinterprets characters from the wonderful wizard of oz or moments in casino royale when we're invited to view james bond with the kind of desiring gaze usually directed at female bodies in mainstream media

a times best paperback of the year 2023 as heard on bbc radio 4 book of the week a necessary corrective to the sexism and misogyny rife in spy tales contains some eye opening tales of espionage guardian gripping financial times a thrilling book as propulsive as classic le carré the times as much le carré as it is hidden figures amaryllis fox author of life undercover the never before told story of a small cadre of influential female spies in the precarious early days of the cia women who helped create the template for cutting edge espionage and blazed new paths for equality in the workplace in the wake of world war ii four agents were critical in helping build a new organisation now known as the cia adelaide hawkins mary hutchison eloise page and elizabeth sudmeier called the wise gals by their male colleagues because of their sharp sense of humour and even quicker intelligence were not the stereotypical femme fatale of spy novels they were smart courageous and groundbreaking agents at the top of their class instrumental in both developing innovative tools for intelligence gathering and insisting in their own unique ways that they receive the credit and pay their expertise deserved adelaide rose through the ranks developing new cryptosystems that advanced how spies communicate with each other mary worked overseas in europe and asia building partnerships and allegiances that would last decades elizabeth would risk her life in the middle east in order to gain intelligence on deadly soviet weaponry eloise would wield influence on scientific and technical operations worldwide ultimately exposing global terrorism threats meticulously researched and beautifully told holt uses firsthand interviews with past and present officials and declassified government documents to uncover the stories of these four inspirational women wise gals sheds a light on the untold history of the women whose daring foreign intrigues domestic persistence and fighting spirit have been and continue to be instrumental to the world's security

shortlisted for the alcs gold dagger for non fiction meticulously researched a

gloriously engaging romp janice hallett the sunday times immersive and compelling david kynaston a page turner robert lacey careful and compelling kate morgan you will read it in one sitting marc mulholland a real life golden age crime novel sean o connor a brilliant narrative investigation into the 1920s case that inspired agatha christie dorothy sayers and margery allingham on a bleak tuesday morning in february 1921 48 year old katharine armstrong died in her bedroom on the first floor of an imposing edwardian villa overlooking the rolling hills of the isolated borderlands between wales and england within fifteen months of such a sad domestic tragedy her husband herbert rowse armstrong would be arrested tried and hanged for poisoning her with arsenic the only solicitor ever to be executed in england armstrong s story was retold again and again decade after decade in a thousand newspaper articles across the world and may have also inspired the new breed of popular detective writers seeking to create a cunning criminal at the centre of their thrillers with all the ingredients of a classic murder mystery the case is a near perfect whodunnit but who in fact did it was armstrong really a murderer one hundred years after the execution agatha award shortlisted stephen bates examines and retells the story of the case evoking the period and atmosphere of the early 1920s and questioning the fatal judgement

in search of western philosophy is a deep survey of the history of western philosophy from the ancient greeks to existentialist it concentrates on the evolution of philosophical ideas in a dialectical dance between the great philosophers of the western tradition from the idealism of plato through the rationalism of descartes it looks at the abyss into which david hume led it to the bold attempts of emmanuel kant to retrieve it from total chaos while hegel lifted it into another plane making mere metaphysics too lame to convey the totality of knowledge by creating what he called the phenomenology of the spirit the later evolution of empiricism into logical positivism by men like bertrand russel and the american attempt to humanize it with pragmatism all play their part in this great saga of thought

what is psychology when did it begin where did it come from how does psychology compare with related subjects such as psychiatry and psychotherapy to what extent is it scientific introducing psychology answers all these questions and more explaining what the subject has been in the past and what it is now the main schools of thought and the sections within psychology are described including introspection biopsychology psychoanalysis behaviourism comparative animal psychology cognitive approaches including the gestalt movement social psychology developmental psychology and humanism the key figures covered include freud pavlov skinner bandura piaget bowlby maslow and rogers as well as many lesser known but important psychologists

what is time the 5th century philosopher st augustine famously said that he knew what time was so long as no one asked him is time a fourth dimension similar to space or does it flow in some sense and if it flows does it make sense to say how fast does the future exist is time travel possible why does time seem to pass in only one direction these questions and others are among the deepest and most subtle that one can ask but introducing time presents them many for the first time in an easily accessible lucid and engaging manner wittily illustrated by ralph edney

brilliant illustrated guide to the best known and most controversial continental philosopher of the latter 20th century jacques derrida is the most famous philosopher of the late 20th century yet derrida has undermined the rules of philosophy rejected its methods broken its procedures and contaminated it with literary styles of writing derrida s philosophy is a puzzling array of oblique deviant and yet rigorous tactics for destabilizing texts meanings and identities deconstruction as these strategies have been called is reviled and celebrated in equal measure introducing derrida introduces and explains his work taking us on an intellectual adventure that disturbs some of our most comfortable habits of thought

clever and witty susie orbach guardian carl gustav jung was the enigmatic and controversial father of analytical psychology this updated edition of introducing jung brilliantly explains the theories that underpin jung s work delves into the controversies that led him to break away from freud and describes his near psychotic breakdown from which he emerged with radical new insights into the nature of the unconscious mind and which were published for the first time in 2009 in the red book step by step maggie hyde demonstrates how it was entirely logical for him to explore the psychology of religion alchemy astrology the i ching and other phenomena rejected by science in his investigation of his patients dreams fantasies and psychic disturbances
